

SG8001 S01 Semester A 2024/25

Assignment Description

Details:

Individual Final Presentation (simulated teaching session) will be held in digital format.

Make a Panopto recording of simulated teaching session for 8 to 10 minutes using your own computing device and submit it online via Assignments in the Canvas course. The session should be accompanied by relevant teaching materials such as PowerPoint slides. The video in the Panopto recording should reveal the upper body of the presenter, and the computer screen capture should show the slides or other teaching resources.

Please refer to the Panopto instructions below.

How to Submit a Video Assignment in Canvas

<https://support.panopto.com/s/article/Submit-an-Assignment-in-Canvas-as-a-Student>

Ensure the quality of audio and video is good before submitting your recording to “Submitting Individual Final Presentation (Simulated Teaching Session via Panopto)”. The required teaching material (i.e., your slide deck) should be submitted to “Submitting Presentation Material”.

Students can teach ANY academic topic, and regard the audience as year 1 university students. But please keep in mind that this is a simulated teaching session for you to teach a topic to the audience. DO NOT treat this as a seminar to share your research results.

The presentation should follow the OBTL framework with clear ILOs, TLAs, and ATs. For example, **not mentioning the ILOs of your session will almost definitively result in dissatisfactory grades.**

ILOs should be explicitly stated on a slide. Remember, each ILO must start with an action verb which is observable and therefore assessable.

The assessment of the presentation follows four dimensions: content; organization; engagement with students (show your intended activities, no need to execute in the video); and language.

Details of the assessment criteria can be found in the folder “Assessment Information and Rubrics” available under Files in the Canvas course. Please be sure to read the rubrics for the assignment to avoid any misunderstanding.

The deadline for the submission will be 21 October 2024 at 11:59 pm.
